

Hi Rod,

Sorry for the delay in email correspondence.

I would like to thank you personally and your team at BCFDF for your continued efforts towards bettering the opportunities for the public fishing sector.

Your group continues to be leaders at the table and your insight and awareness helps us to keep FOC accountable and responsible for their decisions.

We all try to do our part including to give input where needed but of course sometimes our resources fall short. Having many different organizations taking on essential roles in tackling the challenges helps us spread the workload and continue our unified voice.

With that said, thank you again for the wonderful and detailed review you have provided for all

I will be sure to forward this on to all Fraser Valley Salmon Society directors.

We look forward to our continued efforts together.

Cheers and great fishing, forever, Dean and Alyssa <"><
